

# REBOUND® Liquid Diet

## FOR DOGS & CATS

REBOUND® Liquid Diet is a ready-to-use, highly palatable liquid diet that provides compromised patients with the critical ingredients they need to experience a fast recovery to better health.

### Benefit:

Provides complete, fortified and balanced nutrition for critical care, debilitated and recovering canine and feline patients in a palatable, versatile and easy-to-use liquid diet. REBOUND Liquid Diet contains a complete source of amino acids, including essential arginine and taurine. Taurine is important for cardiac function, the brain, nervous system and visual pathways. It also serves as a conjugator of bile acids. REBOUND Liquid Diet, which is a complete source of essential vitamins, including Vitamins A, D, E, B6 and B12, also features:

- Prebiotics to help promote a healthy intestinal environment
- Insoluble fiber to support GI function
- High energy density for compromised patients
- Added Omega fatty acids (DHA) to support brain, eye and heart health
- Lactose free for easy digestion

**Calorie Content (ME):** 200 kcal/8 fl. oz. (237 mL)

### Guaranteed Analysis:

Crude Protein (min.)	5.1%
Crude Fat (min.)	5.2%
Crude Fiber (max.)	1.5%
Moisture (max.)	85.0%
Ash (max.)	1.0%
Potassium (min.)	0.10%
Sodium (min.)	0.17%
Chloride (min.)	0.28%
Taurine* (min.)	0.04%

\*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

### Use:

REBOUND Liquid Diet is an ideal choice whenever nutrition is a vital component for patient recovery.

Recommend it in a variety of cases:

- Post trauma
- Post surgery, including recovery from dental procedures
- Chronic illness: diabetes, renal/liver impairment, co-morbidity
- Geriatric
- Immune suppressed
- Inappetance
- Malnutrition
- Transitional nutrition from fluids to solid food
- Supplemental nutrition to fortify a patient's diet

### FEEDING DIRECTIONS: SHAKE WELL BEFORE

USING. Comes ready to serve: No mixing, diluting or additional nutrients needed. Can be administered by free-choice, feeding tube (with no size restrictions) or syringe. Free-choice product should be replaced after 4 hours.

One formulation for both dogs and cats.

**SUGGESTED DAILY FEEDING RATE:** This table serves only as a guideline. This product should be used as directed by a veterinarian.

Weight (lbs)	Amount Fed (mLs/day)**
2-4 lbs	51 mLs
5-8 lbs	110 mLs
9-12 lbs	190 mLs
13-16 lbs	255 mLs
17-20 lbs	400 mLs
21-30 lbs	680 mLs
31-40 lbs	875 mLs
41-50 lbs	1,060 mLs
51-60 lbs	1,230 mLs
61-70 lbs	1,390 mLs
>71 lbs	1,500 mLs

\*\*This is a daily feeding and should be divided over 4 to 8 feedings, and adjusted according to the condition of the animal.

### Storage and Handling:

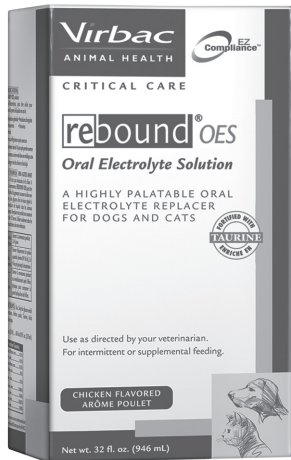

Packaged in a convenient 8-oz. carton. Store unopened at controlled room temperature (59° to 86° F). Refrigerate after opening. Discard after 14 days.

8 fl. oz.	10406

# REBOUND® OES

## Oral Electrolyte Solution

REBOUND® OES is a highly palatable, ready-to-use oral electrolyte and fluid replacer that is designed to be given free-choice and rapidly absorbed. REBOUND OES was formulated by veterinarians to help fight dehydration associated with gastrointestinal distress, physical exertion, and other situations that would lead to minor dehydration.

### Benefit:

Helps rehydrate dogs and cats suffering from minor dehydration, and keeps active dogs hydrated. REBOUND OES is highly palatable and encourages fluid consumption, even in sick and debilitated animals. It also contains taurine, an amino acid and antioxidant that is important for cardiac function, the brain, nervous system and visual pathways. Taurine also serves as a conjugator of bile acids.

**Calorie Content (ME):** 60 kcal/8 fl. oz. (237 mL)

### Guaranteed Analysis:

Crude Protein (min.)	<0.1%
Crude Fat (min.)	<0.1%
Crude Fiber (max.)	0.12%
Moisture (max.)	95.0%
Ash (max.)	0.5%
Potassium (min.)	0.004%
Sodium (min.)	0.04%
Chloride (min.)	0.065%
Taurine* (min.)	0.08%

\*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

### Use:

FEEDING DIRECTIONS: SHAKE WELL BEFORE USING. No mixing or measuring is required. REBOUND OES may be offered free-choice. In addition, it may be warmed\* to increase palatability or frozen into cubes to better regulate fluid consumption in convalescing animals. Replace unused portion after 12 hours. Use as directed by a veterinarian.

Safe for geriatric dogs and cats.

Refrigerate after opening. Discard after 14 days.

\*Do not microwave in carton.

REBOUND OES may be used to orally replace fluids lost from:

- General dehydration
- Vomiting
- Parvo virus
- Diarrhea

### Post-Op Recovery

Offer free-choice for 2 to 4 days.

### Diarrhea/Vomiting

Offer small frequent amounts. 3 to 4 times daily until recovered (approx. 3-4 oz.)

### Physical Activity

Offer free-choice during and/or immediately following physical activity to replace fluids lost as the result of work or play.

### Available Sizes:

**Description**  
32 fl. oz.

**Product #**  
10412
